PROFILE

A detail-oriented front-end developer with over ten years of experience in all phases of the development life cycle. Skilled in HTML, CSS, and JavaScript with a passion for designing and crafting intuitive, accessible, and visually engaging user experiences. A reliable team player with a high level of attention to detail, eager to learn new web technologies.

SKILLS

Languages: HTML, CSS, JavaScript, PHP, SQL

Frameworks & Libraries: jQuery, Bootstrap, USWDS, Sass, Twig, Nunjucks, React

CMS & Platforms: Drupal, WordPress, Acquia Cloud

Build Tools & Version Control: Gulp, Node.js, Composer, Git

Design & UX: Figma, Adobe XD, Photoshop, Accessibility, SEO

WORK EXPERIENCE

Senior Web Developer

The Scientific Consulting Group | Gaithersburg, MD

2019 - 2025

- Designed, developed, and maintained multiple Drupal websites for various offices within the NIH
- Managed Drupal applications on Acquia Cloud using Composer workflows and Git-based version control
- Designed and implemented responsive, accessible Drupal themes based on USWDS and Bootstrap libraries using Twig, HTML, Sass/CSS, and JavaScript
- Collaborated with stakeholders to redesign websites, widgets, and components with usability and accessibility in mind using Figma, Photoshop, and XD for design and prototyping
- Translated wireframes, prototypes, and design specifications into responsive, accessible, intuitive user interfaces
- Developed custom Drupal modules to integrate third party APIs and automate content import
- Implemented a robust faceted search using Drupal contributed modules, taxonomy, views, and blocks to enhance usability and engagement
- Applied routine Drupal security updates to Drupal core and contributed modules and themes and applied maintenance patches as needed
- Supported large-scale content migration initiatives and Drupal version upgrades, streamlining legacy systems into modern, scalable architectures
- Utilized Git for version control, streamlining the development process and reducing code conflicts
- Migrated legacy static HTML sites to a component-based architecture using Nunjucks, Sass and Gulp, enhancing reusability and reducing code duplication
- Worked collaboratively with other developers, designers, managers, and producers on all stages of the development cycle including research, analysis, design, development, testing, documentation, and optimization
- Authored comprehensive technical documentation and user guides to facilitate seamless product adoption and support
- Reviewed and resolved accessibility, content, and user experience issues across websites using the Silktide platform
- Identified and resolved layout, rendering, and scripting issues across multiple browsers using Chrome DevTools and Firebug to inspect DOM elements, monitor network activity, and troubleshoot JavaScript errors
- Evaluated and remediated PDF content for compliance with WCAG 2.1 and Section 508 standards, including tagging structure, reading order, and alternative text

Web Developer

The Miami Herald Media Company | Miami, FL

2007 - 2016

- Delivered high-performing web experiences and marketing assets by developing and enhancing websites, landing pages, and HTML emails for MiamiHerald.com, ElnuevoHerald.com, and Miami.com
- Developed Miami.com from its inception on Drupal including custom themes and modules
- Worked collaboratively with other developers, designers, managers, and producers on all stages of the development cycle including research, analysis, design, development, testing, documentation, optimization
- Launched multiple Drupal upgrades and theme redesigns on Miami.com
- Front end developer for various website redesigns of MiamiHerald.com and Elnuevoherald.com
- Modernized outdated web components by implementing responsive HTML templates with Bootstrap, improving user experience across devices
- Developed scalable JSON data feeds to support real-time content delivery across web and mobile platforms
- Automated ExactTarget emails using ExactTarget's XML API
- Managed site administration, configuring user access controls, role assignments, and permission structures to ensure secure and efficient site operations
- Developed and facilitated onboarding training for new developers and content producers, covering tools, workflows, and best practices

Programmer Analyst

GEICO | Chevy Chase, MD

2004 - 2006

- Java Web Developer for Claims Provider Profile Management System
- Analyzed legacy systems, worked with users, analysts, and developers to write requirements and design UI
- Developed web client using JavaServer Faces technology in Eclipse with Websphere
- Production Support Analyst for First Party Medical Electronic Claim File application

Consultant

The Revere Group | Chicago, IL

2003 - 2004

- Performed technical duties for Lawson environment installation and application upgrades
- Developer and system administrator for various task sourcing clients
- Collaborated with client and team to create design specification documentation for development
- Created and executed test procedures based on detailed analysis of Use Case requirements in an iterative development environment

EDUCATION

University of Notre Dame

1998 - 2002

- Bachelor of Business Administration, Management Information Systems
- Division I Women's Lacrosse

AWARDS

- SCG Employee of the Year, 2023
- The Miami Herald Media Company Herald Hero, 2008
- University of Notre Dame three year Monogram winner, Big East All Academic Team 2002
